

[This transcript of Dr Fred Freeman's notes (Ishval number 34 – their title Love and Death) was by Eleanor Grundy and Alan Roberts in September 2013 - all additions to the original are in square brackets and italics. Crossings out in this piece of work have the same content as in the original, which were also crossed out and usually incomplete sentences.]

[1]

The Idea of Death

Eugene

Parklands 28/6/75

LOVE)

LIVE) very closely inter-related

LOVE one embraces something more than ones' self. One binds together more beings than one.

Inter-functional finding relation is involved in love.

Opposite of Life is Death

But

Opposite of Death is Love

Death = dis-integration of being

Death is a door, it is not an end it is a door from one phase into another.

Matter is energy. There are no irreducible particles.

Some people think human brain works on 'the either/or principle'.

ie: the continuum is either a whole or of discontinuous particles.

c/f ball-bearings.

No scientist has found a single primary particle. All they have

found is a "behaviour tendency probability" (which is of energy).

Granularity is the view that ultimate reality is made up of primary particles which cannot be reduced.

Continuum is the view of the reciprocal inter-penetration of all parts of the whole. c/f undulating water in the ocean.

- the "m" at the end of continuum denotes material particles but it does not denote the separation of these particles from each other.

If we had the view that energy is indiscreet quanta of energy, we would be back in the granularity concept.

Think then that the “energy quantum” is a zone of influence in a field of power – an orderly system of power.

If we view this power as not made of particles, then the ~~structure~~ field of energy is whole.

2 Views of Reality

- i) R or Discontinuous View
(E)
(A)
- ii) L or Continuum View, ie non-discrete, non-serial

Reality is that which differs as a modality of that which does not differ.

KA-RA-NA = Not created power.

There is an infinite ocean of power,
- which is intelligence.

This power is creating, in its wave process, apparent points of intersection
- note a spinning vortex in water is not an entity on its own, but is a behavioural modality of the water.

Note. there are no entities whatever in ultimate reality, other than spinning modalities like vortex in water.

Note. If you do not spin you do not exist.

(ie Love/Life)

L = to conjoin, ie to belong to the continuum

(ie Death)

R = to differentiate, and to fall to bits.

The continuum is Power which is sentient

Note = in act of positing or compressing energy one is taking energy from the surrounding environment in order to posit the energy

All power feels itself, there is no non-sentient power.

Therefore all compacted power become an existence-felt entity,
and it feels the vacuum-ated [*sic.*] power around it to be voidity

ie one gains and loses simultaneously

c/f Genesis 'good' and 'evil'.

What Adam called 'evil' was that which had vacated energy to make
what he called 'good'.

In the act of positing, one is vacating the surrounding space of power modalities.

Therefore What we call

Life is Death (and vice versa)

In the act of constraining himself in order to do one thing, ie through concentration,
then one is dead to those things on which we do not focus (or concentrate), and for
that being these things are ignored, do not exist, ie one is dead to them.

By means of "zones of contraction" ie bodies, the continuum makes itself more
aware of its existence.

BRAHMAN = extended self

JIVA = individuated, empirical self
ie focussed down consciousness

but extend self is only beneficial to being in that he can concentrate and compact.

Individual can create gradients in himself

 = circle is any zone under consideration
by consciousness

PSI  = zone of contested authority

 Authority = zone set up by author, who is the power

PSI ZONE

Ψ zone = cause of all the world trouble there is

ie one looks at something, decides what it is and says what it is

- someone else defines and/or interprets it differently and then trouble

Power is by its very nature tends to formulate and function. It cannot do nothing.

Therefore think if we want to avoid a situation where A and B each formulate without reference to each other, a situation can arise where both A and B focus more on the Ψ zone than on their original purposes.

ie battle can become so great that participants forget what they are there for.

This can apply with nation, family or within an individual.

If there is a disparity of ideas, feelings, or wills, this disparity can kill you either locally, (in parts of the body) or wholly (with death of whole body).

Death is always the same ie Disparity ie Quarrelling of Energy without Reference to each other.

A vibration of energy can occur that will dispartate with other beings. Energies . . .

. . . that operate disparately the being will disintegrate and fall to bits.

VIBRATION DESTROYS

Therefore we must condemn the Disparity.

Therefore we must find a way in which both A and B can modify their behaviour so that they do not vibrate themselves into non existence.

LOVE is the binding concept that allows disparate energies to harmonise and co-exist.

Ordinary person has not got

- only one will
- strong clear concept of like/dislike

Therefore he is emotionally at war within and vibrating process will shake individual to pieces, and then he will be dead.

LOVE = process that allows man to work for harmonising of all disparate ideas.

At level of thinking, if one does not clarify, it is possible that this idea will be disparate with some other idea.

c/f i) Mother and child

- ii) 'Mother knows best'
ie mother would have to know best absolutely and
in everything at times child thinks it knows best.

Therefore basis of vibratory energy.

Inside the human being, one has a record of ancestral experience.

The living human being is the survivor of the protoplasm of all its ancestors.

The HUMAN BEING has to
LEARN TO TURN THE LETTER
'I' into the LETTER 'O'
IS Live into Love

If we cannot embrace all these disparate functions we are going to fall to bits.

Purpose of continuum was to produce a harmonious zone of thinking, feeling and willing.

How do we embrace disparity?

Through Tolerance we control through understanding.

Live becomes Love if we allow that all beings are pursuing the same goal.

Attitudes to DYING

Deny i) Refusal at thought of death

ii) Anger at thought of death

iii) Depression

iv) Acceptance

v) Looking Forward (I wonder what is going to happen next)

i) BLISS uninterrupted motions of power

ie going along with no impedences but where any motion of power intersect spin occurs and one then feels it. Therefore one tends to contract on it in order to get rid of it.

But as one focuses one tends to focus more on it in order to refuse or deny it and it becomes more important than the bliss.

ii) Because one focus, one becomes pinned and the energy of the refusal causes a vibrating rage or effort, ie anger.

ie one is determined to smash the opposition.

JIVA - this zone is interrupting my bliss. But eventually one becomes . . .

. . . aware that one cannot win. So one becomes

- iii) Depressed. One realises one cannot do anything about it. Therefore one decides to accept.
- iv) Acceptance. But as one accepts, the energy caused by the turbulation dies down and then one finds oneself back in the Continuum.
- v) Looking Forward
Therefore instead of merely extend bliss, one has a moving about centre and one becomes aware of other egoic beings moving about and one has a consciousness, instead of contracting itself down, which is looking on a transcendental state of awareness, ie instead of contracting down it moves as it wants to.

An expanding consciousness, can see patterns of opportunity for other beings along gradient lines that have been laid down by the field of consciousness.

Level above Tolerance is
Conscious Deliberate Reciprocal Interfunction

The being that concentrates on the egoic level tends to regard that which he does not concentrate on as 'rubbish'.

2 Kinds of Death

- i) Death by annihilation or dispersal of energies into the field.
- ii) Death by Egoic concentration, which closes contact with remainder of field.

Christianity is in Cosmos

Chris = Cross in Circle

This principle was taught in every major religion.

First point of individuation.

No reciprocal relation of the order.

The first attitude to Cross-ti-anity was rejection.

But in the act of rejection

energy was focussed

therefore became centre of human consciousness

ie the Stone that was rejected became the corner stone of the temple
(ie of the time process)

If we rejected the original process

L O V E Note the dot in the **⊙**
is a centre of reference

At the level of hexonic power there was total interference, so that no one could do anything.

LIVE Egoic Individuation
LOVE Zone of Interfunction - LOVE
LAUGH Infinite Bliss

Infinite power.

If one does not focus on body, one is in the love

Laugh = conjunction of infinite power
allow live, love, laff

One has never been afraid of death naturally.

One has been taught to fear it by civilisation, built up progressively by education.

~~When you are moving about enjoying yourself~~

Death is a Doorway to where you were before you were Born.

- Reciprocal Relation)
- Shore *[share?]* my individuality) Death
- Absolute Bliss) to
-) Door to

There are no ultimate disparate particles.
Our being is composed of functions of infinite power.

If you argue with someone you feed the energy in the other person.

Death is a fiction, caused by concentration of focus on a vortex which is part of infinite field of power.

The reality is Absolute Sentient Power

dots = tiny individual
beings within cosmos

= A O I
= Jehovah
very early spelling of God

Gods are human beings who have
attained awareness of the whole process

Reciprocal Loving
Absolute Laughing

~~(Identify with your physical body as your egoic self~~

- Death)
- Life) JOKE
- Love)
- Laugh)

Everything you do is self precipitated by SP

When your evolution is complete, you are free to start your activity or deification.

If a human being strain upon a particular course. The whole field strains away from it. Thus the straining causes a ranging or gradient.

Gradient exists. The whole universe is shot through and through with them.

Concept has an emotional feel round it.

If one changes ones idea, one will find ones emotional field changes.

Taking advantage of gradients is called 'Cosmic Efficiency'.

LAUGH means "Conjoin to Power"

You have to do 2 things at once.

- i) Be individuated (to find out what I need)
- ii) Be conscious that one's origin is in the infinite (and that Absolute in all beings also wants something).

Humane individuation

The Kingdom of Heaven is Power
Not Egoic power but Absolute Power

Every human being has a mental horizon.
Therefore accept your position, find out your dead points;
ie those of you who are not interested in something are dead to it.
The ego transfixes you on the world outside and you forget your body.
Your body is a universe on its own.

You can die:

- Physically)
 - Emotionally)
 - Meditatively)
 - Comprehensively)
 - Volitionally)
 - Hexonically)
-
